

Date: 16th August 2024

Tirth Vipulkumar Patel

Greetings,

We hope this email finds you well. On behalf of Kanan.co and the Advanced Technology Portal Team, we would like to express our deepest appreciation for your outstanding contribution during your internship with us. As your internship comes to a close, we would like to extend our best wishes and share with you an official experience letter.

At Kanan.co, we are dedicated to revolutionizing the world of advanced technology portals, and we are confident that your skills and passion will contribute significantly to our mission. As a member of our internship program, you will have the opportunity to work on cutting-edge projects and gain hands-on experience with our industry-leading CRM, KAPPLY, and KYS platforms.

This is to certify that Mr. Tirth Patel did his internship in Kanan.co as an intern in Tech. department. His period of internship was from **7th March 2024 to 10th July 2024**.

His role was to maintain strong relation with students and to solve their doubts; he spent a significant amount of time in each department and learned in-depth what the flow of work is like. He had a great exposure on all the technology like CRM, K-APPLY, COMMUNITY APP, K-PREP etc. giving his full time on learning various platforms.

His responsibilities in the Department were:

Monitored online classes and provided technical assistance to faculty members facing issues.

Checked the online portal videos and organized the video database.

Worked with CRM and user authentication tools to provide users access to the online portal.

Throughout the internship, you are actively participating in the development and enhancement of our CRM platform, supporting the implementation and maintenance of our K-APPLY system, and collaborating on the improvement of our KYS platform. We appreciate that you have demonstrated a keen ability to adapt to new technologies, problem-solve, and work collaboratively in a dynamic team environment.

For Kanan International Private Limited

Mr. Manish Shah
